

WHEN YOUR BOTTOM LINE IS THE BEST DATA

Database Of All Active Companies Traded On The TSX And TSX Venture Exchanges

The Canadian Company Fundamentals database consists of all active companies traded on the TSX and TSX Venture Exchanges.

All data items are reported, collected and stored in Canadian Dollars with a conversion factor to convert the figures to U.S. dollar equivalents.

All financial data are compiled from company annual reports, interim reports, other financial documents and business news stories. Certain data items are licensed from third-party providers.

All equity data is fully adjusted for stock splits and dividends. Data is provided “as-reported” and presented in industry-standard templates. An additional “Restated Record” is available for all firms that have restated their financials.

Company Header information includes: CUSIP, Name, Ticker, Exchange and Industry(s) (SIC, NAIC & Hemscoff Industry Group).

Data on Canadian companies includes:

Two as-reported financial statement templates:

- Industrial
- Financial

Detailed income statements, balance sheets and statements of cash flow accounts.

Historical data available for:

- Up to 11 years of annual financial history
- Up to 41 quarters of interim history

Key financial metrics for company-to-industry comparisons as a historical time series:

- Selected financial data items are standardized to provide cross-company “apples-to-apples” evaluations

Pre-calculated financial ratios and growth rates available as:

- Year-to-Date values
- Trailing Twelve Months values
- Historical Fiscal Annual values

Extensive Per-Share Data and pre-calculated values including Dividends, Earnings, Percent Changes and Dollar Changes for the following periods:

- Year-to-Date
- Trailing Twelve Months
- Compared to 1 Year Ago
- Latest available

Non-financial statement data available as a historical time series includes:

- Number of Full-Time and Part-Time Employees
- Number of Common Stockholders
- U.S. vs Foreign Revenue Breakdown
- Business Segment Data by Industry Group
- Short-Interest Shares

General company information includes important textual data such as detailed business description, street address, telephone and fax numbers, website URL, e-mail address, industry group membership and independent auditor opinions.

Additional information includes a current list of the board of directors and corporate officers.
